Periklis Petropoulos
Production Engineer

Alex Norman
Research Associate

We are a team of scientists and artists making biomaterials.
With Cyalith® & Fabalith® optimised, we aim to supply bespoke installations
as a means of exhibiting and developing the parameters of our materials.

Fabolith®

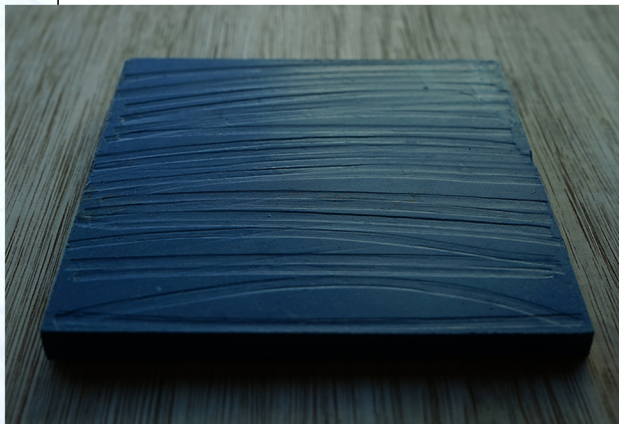

Our BioSintering® process produces tiles without
spray drying or energy intensive kilns

Cyalith®

100% Natural

Cyalith®

We use natural processes to create a range of
organically derived colour palettes

Cyalith[®]

Currently taking Summer orders for >1sqm (price on request)
